About Us

Our company **Arshad Electronics Pvt. Ltd.** was established in the year **1971** at Mumbai by **Mr. A. G. Moolji**, a great thinker and visionary, whose philosophy was to deliver the best in products and service to our clients. This methodology has been carried forward by his heirs and colleagues to produce the very best quality of products. We wish to deliver our optimum quality products to clients all over the world. We strongly believe that a good product speaks for itself and does not require any sort of marketing. Our focus on delivering an exceptionally vast range of superior quality products as well as the provision of timely service has helped us to establish our supremacy in the market. As pioneers in the manufacture of Corona Discharge Treaters and Induction Cap Sealers in India, we have been involved in developing new and improved technologies by carrying out several innovations on a regular basis. We constantly strive to meet the industrial quality standards. Through the usage of highly qualitative raw materials and conduction of quality inspection at various stages by the help of rigid testing methods, we have managed to ensure that we provide the most reliable and durable products suited for various client requirements.

Owing to the modern thinking and implementation of our director **Mr. B Moolji**, we are have made our foray into the market for new generation of corona treaters and induction cap sealing machines. They possess...
